1. Introduction & disclaimer

The COVID-19 crisis has an enormous impact on our society, life as a student and our association. Since mid-March 2020, the Netherlands has been in a state of intelligent lockdown on and off. This has impact on all aspects of our society, including student life.

As a study association, we aim to make the best out of this year for all students of the ESSB. However, health is our top priority. Therefore, this protocol has been set up. In this document, the measures regarding COVID-19 taken by Cedo Nulli will be explained. With this protocol, Cedo Nulli aims to minimize the risks and the chances of contamination. Besides this, the protocol is a framework for regulations regarding our members and activities. All measures are based on the guidelines given by the RIVM and the Dutch government.

We strongly urge you to follow the guidelines. By sticking to the regulations, the COVID-19 crisis will be over sooner and associations, such as Cedo Nulli, can continue organizing their events.

For now, enjoy your time as a student and stay safe!

The 37th Board of Cedo Nulli
